

# STABILIZER

FOUNDATION REINFORCEMENT SYSTEM

## THE BASEMENT SOLUTION FOR BOWED, TIPPED, OR SHEARED WALLS

### HOW DOES IT WORK?

#### BEFORE

Tipped Wall

Bowed Wall

Sheared Wall

#### AFTER

### WHAT IS IT?

Stabilizer is a pre-engineered, effective and permanent solution that restores structural integrity to a foundation wall. Bowed, sheared and tipped walls can be quickly repaired and restored with just one product. No outdoor excavation.

1. Adjustable Top Bracket; 2. Fixed Top Bracket; 3. Floor Bracket; 4. Slab Spike

Installed every 5 - 6ft. along foundation
