

Crack Injection Resins

For wall crack repair using a low pressure injection method

Permanently and immediately stops and prevents actively leaking cracks

Quickly expands 400% to 600% and cures to form a flexible gasket in voids

Solvent-free and non-corrosive

Excellent bonding capabilities

Withstands shifting as a result of thermal cycles

RICH-105

For 1/16" to 5/16" wide cracks

Forms a resilient, yet tough, flexible closed-cell foam

Can accept up to 10x its weight in water

RICH-110

For cracks 5/16" and wider

Forms a resilient, yet tough, flexible closed-cell foam

Bridges wide gaps

RICH-115

For hairline to 1/16" wide cracks

Forms a resilient, dense and flexible closed-cell foam

Permeates very fine cracks or joints

Complete line of accessories available:

Item #	Description
RESINS & ADHESIVE	
RICH105	RICH-105 Low Viscosity
RICH110	RICH-110 Mid-Range Viscosity
RICH115	RICH-115 Ultra-Low Viscosity
RICHADH300	Surface Paste and Port Adhesive (Parts A & B)
ACCESSORIES	
RICHPORTFLAT250BAG	Injection Port, Flat, 250/Bag
RICHPORTDRILL250BAG	Injection Port, Drill, 250/Bag
RICHCAP	Injection Port Caps, 500/Bag
RICHMIXER500	1/4" Diameter Resin Mixer Tube
RICHNUT550	Mixer Tube Nut
RICHINJGUNDUAL	Premium Dual Cartridge Injection Gun
