Extends the cove diverter's  
functionality all the way up the wall

Item #	Description
SH384H2	48" x 96" x 0.12"

## BENEFITS

- CLASS I VAPOR RETARDER
- PERMEANCE RATING OF  $\leq 0.1$  PERM
- MOLD AND MILDEW RESISTANT
- LIFETIME WARRANTY

## WHAT IS IT?

Drainwall is a non-permeable panel that is permanently fastened to the foundation wall to stop water from entering the basement. Drainwall features small bubbles on the back that allow water from the foundation wall to be channeled down into the sub-floor drainage system, keeping the basement interior dry.

## BUBBLE CLOSE-UP

Drainwall accessories include joiners, corners, and cap specially designed to accommodate its 3mm thickness. Drainwall can be fastened to the wall with any of our drive pins, x-mas tree or nylon fasteners.
