- PERMEANCE RATING OF  $\leq 0.1$  PERM
- MOLD AND MILDEW RESISTANT
- LIFETIME WARRANTY

## WHAT IS IT?

Durawall panels are non permeable moisture and vapor barriers permanently installed to the foundation. Moisture entering the foundation is directed into any subfloor or surface drainage system, keeping the basement interior dry.

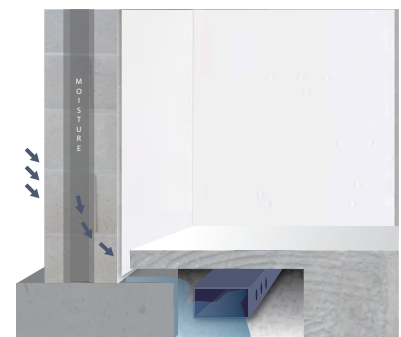

Durawall is available in 3 thicknesses and can be finished with decorative cap for a clean look. Durawall can be installed at the footer and extend just above the floor (Option 1 below), or it can be fastened all the way up the wall (Option 2).

**BEFORE**

**AFTER (OPTION 1)**  
COVER WEEP HOLES ONLY

**AFTER (OPTION 2)**  
FULL HEIGHT PROTECTION
