

E-Z Breathe® Ventilation System

Your Solution for a Healthy Home

Advantages of an EZ Breathe Ventilation System:

- Removes the gallons of water vapor that enter your basement daily
- Reduces mold and mildew + musty odors
- Protects your foundation from decay
- Provides a healthy indoor environment throughout the whole home
- Energy efficient at only \$2-\$4/month
- Removes allergy/asthma triggers
- Creates whole home air exchanges
- Conditions your basement, a key to a healthy home
- Combats the natural 'stack effect' by exhausting foundation air, protecting indoor air by preventing polluted basement air from entering living space

What people are saying about the Ventilation System:

“ Always had a musty odor in the basement. Three days after installing EZ Breathe, the smell was gone. I was a skeptic, but EZ Breathe did the job. The money savings is unbelievable but the performance is shocking. I am so pleased with my basement, it's the most comfortable place in the whole house now thanks to EZ Breathe. Highly recommend! ”

– Joe F., Pennsylvania

Product Specifications

Ventilation System

- Service area: 7000 sf
- Air flow: 138 cfm
- Noise level: 35 dB
- 110 volts
- .3 amps
- 31 watts
- Single phase
- Less than 1 Pascal
- Base motor dimensions 8x20x6 in., 10 lbs.
- Entire unit dimensions: 48x10x14 in., 25 lbs.

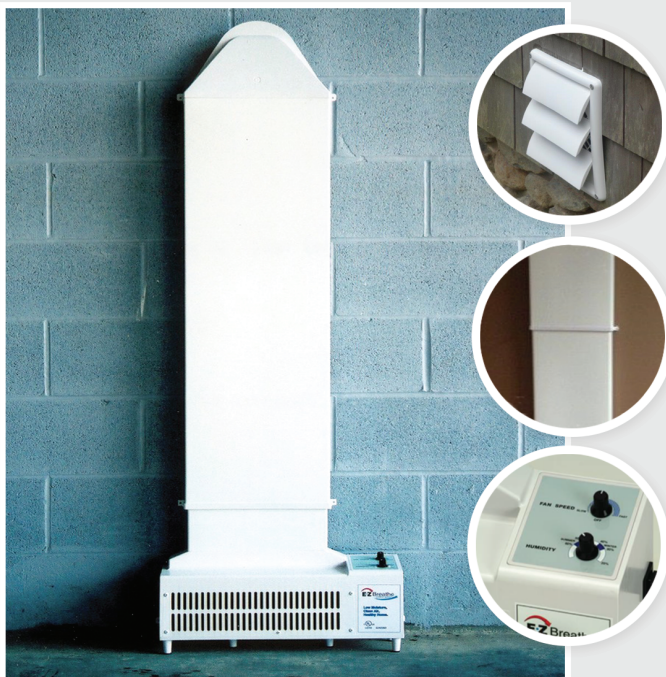

How E-Z Breathe® Ventilation System Works

Easy as 1 - 2 - 3

- 1 EXPEL damp, contaminated air from basement – reducing natural stack effect
- 2 REPLENISH contaminated air with drier, cleaner air to improve air quality and create a healthier, more comfortable environment in the basement.
- 3 VENTILATE the home, creating air exchanges in accordance with the US EPA guidelines

Easy to Install. Engineered to Last.

1. EZ Breathe Ventilation System is installed on an exterior wall – requiring a 6-inch exhaust hole

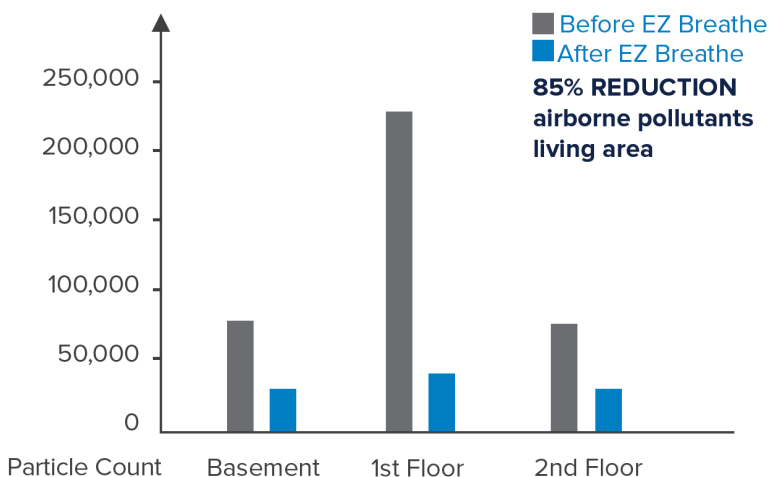

2. The EZ Breathe louvered exhaust vent is mounted on the outside of the house – just like a dryer vent! Includes fine mesh screen to protect from any pests entering.
3. The EZ Breathe telescoping chute fits any foundation wall height makes for easy installation.
 - Standard chute – for walls up to 8"
 - Extension chute – for walls up to 10"
 - Crawlspace chute – for walls up to 5"
4. Set it and forget it control panel:
 - Fan Speed = Medium - high
 - Humidistat = 35% - 45%

Manufacturers 10 year warranty – guaranteed on all EZ Breathe units.
